

First/Main View :

This is the first screen that opens when app starts. It has two buttons and a link to the last playlist that ran.

New Group/Playlist:

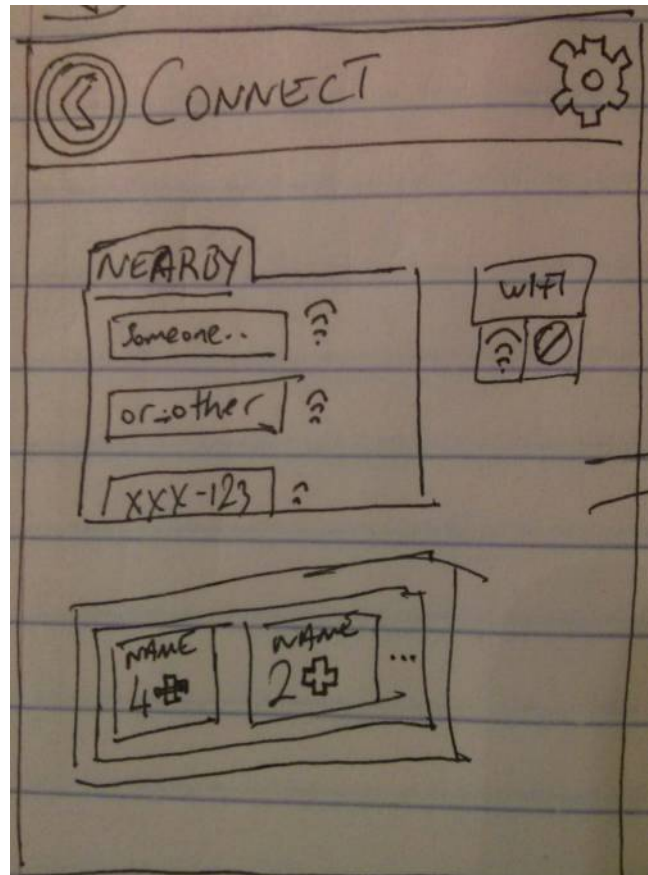

Screen navigated from "new":
Fields for a playlist name, latest used songs and options for music sources.

Connect Page

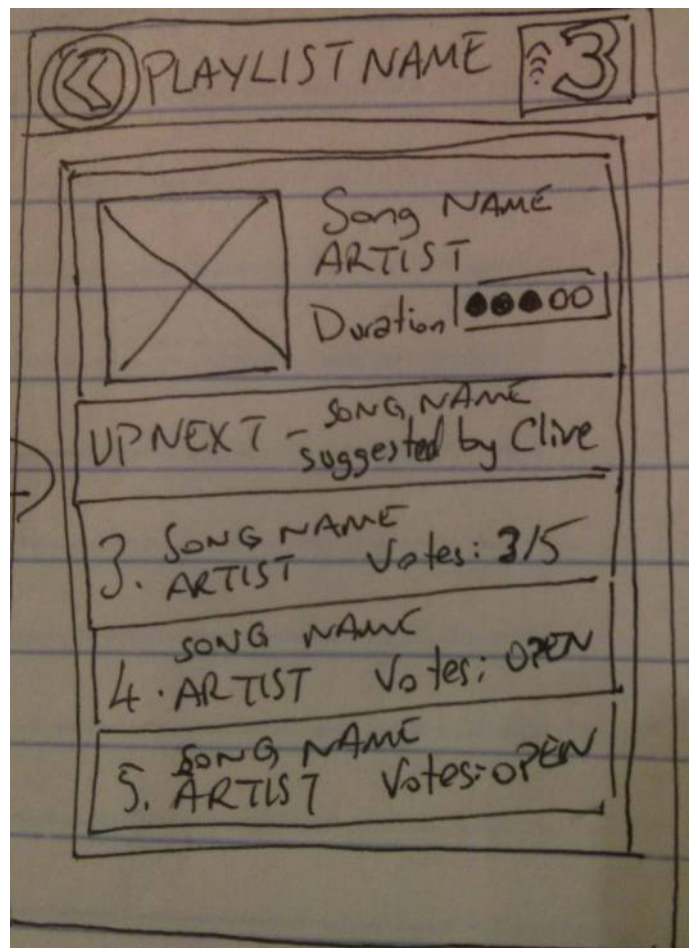

Screen navigated from
"connect"

Has nearby wi-fi networks,
and active playlists within
range

Playlist

Actual live playlist screen,
has detailed view of current
song, it's rating within the
group, song up-next is
decided and is immutable,
other songs are open to
vote/ordering/deletion
